If you find it difficult to keep your right hand table, try placing your thumb on the low E string. With the right forearm on the front edge of the lower bout, let your hand fall over the strings near the right side of the sound hole. Follow through toward your palm. It contains many of the concepts that have been covered thus far in this book, including accidentals, changing note values, scale passages, and legato playing. The most common scale is the major scale. ACCENTED NOTES Accented notes are notes played with a little more volume than the others. Play them as sharps throughout the piece. This procedure will keep the tension on the neck, bridge, and soundboard more constant and be a less traumatic experience for your guitar. Less expensive guitars that are constructed with mostly laminated woods are far less affected be these humidity changes. Listening to the audio tracks included with this book will give you a clear idea of how each exercise or song should sound, which will in turn help teach your fingers. Remember, playing legato is much easier if your left-hand fingers are always hovering close to the notes they will play. Don¢ÃÂt forget the GB played on the first fret of the G string. It helps to create a smooth, Legato sound between two notes, similar to a violinist playing several note in succession with just a bow blow. Be careful not to put your fingertips under the rope. You can remember the names of the team lines with the phrase, "every good boy gets out well." The G, then start again, repeating until they are beyond the range we can play (or hear). This technique works well for certain settings, especially when an individual chord is played or when playing a slow chord group, such as the following example. Play slowly and count, keeping notes for your full-time value. This is the E note, for which you tune your open and high string and (1st). Use a sharp blow to bring that voice to light. It does mean learning to play the guitar in the classical tradition that has been developed for centuries and continues to evolve. Study No. 9 00:00 / 00:00 This piece uses a stepwise or scale-like melody. His students, ranging from age five to adulthood, have won first prizes in many local, national, and international competitions. Scales are the foundation of music. Notice that the note stems of the lower voice are pointing downward and the note stems of the upper voice are pointing downward and the note stems of the upper voice are pointing downward and the note stems of the upper voice are pointing upwards. 2. You might make a few mistakes at first but will soon gain accuracy and confidence. The son of a court musician, Beethoven was born in Bonn, Germany in 1770. Like much of the music in the Flamenco style, it uses the rhythms and melodies that date back centuries to the Moorish invasion. Place the thumb tip on the string. Isolate and work extra hard at the tricky spots. One strum equals one guarter note in 4/4 time. Practice just the melody first before adding the accompaniment. Both types of slur are indicated in the music by a curved line connecting the two notes. The bottom number tells you which kind of note is equal to one beat. Push in slightly with force from the knuckle. It allows your hands to work freely and your guitar to remain stable. Classical guitars are made to play more intricate music. This stem direction will help you see the two separate parts, which are said to be written in divisi (divided). There is a sharp or a flat between every note except E and F, and B and C. If you simply release your finger from the string, you won¢ÃÂt produce enough sound.
